## H \& M Hennes \& Mauritz AB

## Six-month report

First half-year (1 December 2016-31 May 2017)

- The H\&M group's sales including VAT increased by 9 percent to SEK $113,907 \mathrm{~m}$ $(104,965)$ during the first six months of the financial year. Sales excluding VAT amounted to SEK $98,368 \mathrm{~m}(90,565)$. In local currencies sales increased by 5 percent.
- Profit after financial items increased by 6 percent to SEK $10,920 \mathrm{~m}(10,329)$. The group's profit after tax amounted to SEK $8,354 \mathrm{~m}(7,902)$, corresponding to SEK 5.05 (4.77) per share.

## Second quarter (1 March 2017 - 31 May 2017)

- The H\&M group's sales including VAT increased by 10 percent to SEK $59,538 \mathrm{~m}(54,341)$ during the second quarter. Sales excluding VAT amounted to SEK $51,383 \mathrm{~m}(46,874)$. In local currencies sales increased by 5 percent.
- Gross profit increased by 9 percent to SEK 29,345 (26,980). This corresponds to a gross margin of 57.1 percent (57.6).
- Profit after financial items increased by 10 percent to SEK $7,708 \mathrm{~m}(7,002)$. The group's profit after tax amounted to SEK 5,897 m (5,357), corresponding to SEK 3.56 (3.24) per share. The profit increase in the second quarter is mostly explained by continued expansion and tight cost control.
- Continued rapid and profitable growth of the group's online sales, which in some established markets already account for 25 to 30 percent of total sales. The profitability of the group's online sales is in line with that of the physical stores.
- H\&M's online store opened in further six new markets during the spring - Turkey, Taiwan, Hong Kong, Macau, Singapore and Malaysia - and is now available in 41 markets.
- Continued very good development for COS, \& Other Stories, Monki, Weekday and H\&M Home.
- The H\&M group's sales including VAT for June 2017 are expected to increase by 7 percent in local currencies compared to the same month last year.
- Successful store openings in new H\&M markets Kazakhstan and Colombia this spring will be followed by openings in Iceland, Vietnam and Georgia.
- H\&M's online store will open in a further two markets in 2017 - the Philippines and Cyprus - in addition to the six online markets that have already opened in 2017.
- COS will reach turnover of around SEK 10 billion in 2017, with profitability in line with that of the H\&M brand.
- The new brand, ARKET, will be launched in 2017 with five stores and 18 online markets.
- Continued investments with a digital focus. It is estimated that the group's online sales will grow by at least 25 percent per year going forward.
- India will be a new H\&M online market in 2018. Additional new online markets will open in 2018.
- New H\&M store markets planned for 2018 are Uruguay and Ukraine.

H\&M

SEK 114 billion
sales incl VAT

## Comments by Karl-Johan Persson, CEO

"Sales in the second quarter increased by 10 percent in SEK to more than SEK 59 billion including VAT. In local currencies, sales increased by 5 percent. Profit after financial items increased by 10 percent to SEK 7.7 billion.
Sales in the UK, Scandinavia and Eastern Europe as well as in many of our growth markets were good. However, it was more challenging in several of our major markets such as the US, China, the Netherlands and Switzerland.
H\&M's online sales developed very well and continued to increase its share of total sales. The development of COS, \& Other Stories, Monki, Weekday and H\&M Home remained very strong, both in stores and online.

## An industry in transition

Fashion retail is going through a period of extensive change because of increased digitalisation. Customer behaviour and expectations are changing at an ever-increasing pace, with a greater and greater share of sales taking place online. This shift brings great opportunities for the H\&M group. We are in a strong position, with well-known global brands suited to both physical stores and online sales, and we are financially strong and can invest at the pace required.

## Continued investments and digital focus

We continue to invest and develop our business with a digital focus to give our customers the best possible shopping experience. This includes:

ARKET

- Improvement, diversification and expansion of our online offering - for example more and faster delivery options, more payment alternatives, a broader range of products and more new markets.
- Integration of our physical stores with the online store - to offer a shopping experience where customers are always able to move freely between our various channels and shop in the way that suits them best. Our global store network gives us a unique proximity to our customers, which is a great asset and advantage.
- Expansion of new physical stores with a focus on growth markets - around 500 new stores with very favourable conditions are planned to open during the year.
- Optimisation and development of the store portfolio - rebuilds, relocations, additional store space. Around 100 store closures during the year. Development of $\mathrm{H} \& M$ stores to include new forms of visual expression for a more inspiring in-store experience.
- Supply chain optimisation - increased speed, efficiency and flexibility.
- Advanced analytics - allows further improvements in areas such as the product range development, quantification, allocation and personalised communication.

## The ability to build new brands and concepts

An important part of the H\&M group's strategy is to develop, launch and build new global brands. A good example of this is COS, which will reach revenues of around SEK 10 billion this year with profitability in line with that of the H\&M brand. The value of COS today already far exceeds the amount we invested in it and this is just the beginning of the journey.
Our other brands, \& Other Stories, Monki, Weekday, Cheap Monday and H\&M Home, are very well-positioned to make the same journey as COS. We are expecting our newer brands to continue to grow substantially for many years to come and to account for an increasing share of the H\&M group's growth and value.
After the summer, we are looking forward to launching yet another new brand, ARKET, which received fantastic reviews at previews during the spring. The first store will open on Regent Street in London with the simultaneous launch of ARKET's online store in 18 European markets.

## Continued rapid and profitable online growth

The H\&M group's online sales have developed very well and already account for 25 to 30 percent of total sales in certain established markets. We are expecting our online sales to increase by at least 25 percent per year, with profitability in line with that of the physical stores.

## Fast pace is vital

We are convinced that the investments we have made and are making will result in continued profitable growth for many years to come. A clear focus for us is to continue to develop our business with quality at a fast pace and thereby strengthen the H\&M group's position even further in a growing and rapidly changing market."

|  | Q2 | Q2 | Six months | Six months |
| :---: | :---: | :---: | :---: | :---: |
| SEK m | 2017 | 2016 | 2017 | 2016 |
| Net sales | 51,383 | 46,874 | 98,368 | 90,565 |
| Gross profit | 29,345 | 26,980 | 53,811 | 49,679 |
| gross margin, \% | 57.1 | 57.6 | 54.7 | 54.9 |
| Operating profit | 7,650 | 6,952 | 10,809 | 10,222 |
| operating margin, \% | 14.9 | 14.8 | 11.0 | 11.3 |
| Net financial items | 58 | 50 | 111 | 107 |
| Profit after financial items | 7,708 | 7,002 | 10,920 | 10,329 |
| Tax | -1,811 | -1,645 | -2,566 | -2,427 |
| Profit for the period | 5,897 | 5,357 | 8,354 | 7,902 |
| Earnings per share, SEK | 3.56 | 3.24 | 5.05 | 4.77 |

## Sales

Sales including VAT increased by 10 percent to SEK $59,538 \mathrm{~m}(54,341)$ in the second quarter. Sales including VAT in the half-year period increased by 9 percent and amounted to SEK $113,907 \mathrm{~m}(104,965)$. In local currencies sales including VAT increased by 5 percent in the second quarter and by 5 percent in the first half-year.
Sales excluding VAT increased by 10 percent to SEK $51,383 \mathrm{~m}(46,874)$ in the second

H\&M Home quarter and by 9 percent to SEK $98,368 \mathrm{~m}(90,565)$ in the half-year period.
The difference between the sales increase in SEK and in local currencies is due to how the Swedish krona has developed against the overall basket of currencies in the group compared to the same period last year.

Currency translation effects arise when sales and profits in local currencies are translated into the company's reporting currency, which is SEK. A negative currency translation effect arises when the Swedish krona strengthens and a positive currency translation effect arises when the Swedish krona weakens.

## Gross profit and gross margin

H\&M's gross profit and gross margin are a result of many different factors, internal as well as external, and are mostly affected by the decisions that H\&M takes in line with its strategy to always have the best customer offering in each individual market - based on the combination of fashion, quality, price and sustainability.

Gross profit increased by 9 percent to SEK $29,345 \mathrm{~m}(26,980)$ in the second quarter, corresponding to a gross margin of 57.1 percent (57.6). For the first half-year, gross profit

H\&M Kids increased by 8 percent to SEK $53,811 \mathrm{~m}(49,679)$, corresponding to a gross margin of 54.7 percent (54.9).

Markdowns in relation to sales increased by 0.7 percentage points in the second quarter 2017 compared to the corresponding quarter in 2016. Higher stock-in-trade going into the quarter as well as lower sales increase than planned led to increased markdown activities in the quarter.

Overall, the market situation as regards external factors such as purchasing currencies and raw materials was slightly negative during the purchasing period for the second quarter compared to the corresponding purchasing period in the previous year.

For purchases made for the third quarter 2017, the overall market situation for the external factors is also considered slightly negative compared to the corresponding purchasing period the previous year.

## Selling and administrative expenses

Cost control in the group remains very good. For the second quarter of 2017, selling and administrative expenses increased by 8 percent in SEK and by 4 percent in local currencies compared to the second quarter last year. For the first half-year, selling and administrative expenses increased by 9 percent in SEK and by 6 percent in local currencies compared to the first half-year period last year. The increase is attributable to the expansion.

H\&M Man

Profit after financial items

Profit after financial items in the second quarter increased by 10 percent to SEK 7,708 $m(7,002)$. Profit after financial items in the first half-year period increased by 6 percent to SEK 10,920 m (10,329).

The profit increase in the second quarter is explained by the expansion in combination with a very good cost control.

Stock-in-trade amounted to SEK 32,148 m (25,339), an increase of 27 percent in SEK compared to the same point of time last year. Currency adjusted the increase was 22 percent.
The increase in the stock-in-trade is explained by the group's continued expansion and a higher inventory level going into the second quarter combined with a lower sales increase

\& Other Stories than planned. Although inventory levels were higher than planned at the end of Q2, the rate of increase slowed during the second quarter. However, the higher stock-in-trade at the end of Q2 will most probably lead to higher markdowns levels in the third quarter compared to the corresponding quarter last year - with the aim of giving the autumn season the best possible start.
The stock-in-trade amounted to 16.1 percent (13.7) of sales excluding VAT rolling twelve months and 31.9 percent (30.2) of total assets.

## Expansion

The growth target of the H\&M group is to increase sales in local currencies by 10-15 percent per year with continued high profitability.
In 2017 new markets for H\&M stores will be Kazakhstan, Colombia, Iceland, Vietnam and Georgia. The first H\&M stores in Kazakhstan, which opened in Almaty in the second quarter - and the first stores in Colombia, which opened in Bogotá, have made a very good start.

Six new H\&M online markets were opened in spring 2017: Turkey, Taiwan, Hong Kong, Macau, Singapore and Malaysia, all of which have had a good start. The H\&M online store is today available in 41 markets, and with the addition of Cyprus and the Philippines the $\mathrm{H} \& \mathrm{M}$ online store will soon be available in 43 markets.
For full-year 2017 approximately 500 new stores are planned to open, with a focus on growth markets. Most of the new stores in 2017 will be H\&M stores, while approximately 70 to 80 stores will consist of the newer brands COS, \& Other Stories, Monki, Weekday and ARKET.

After summer 2017 ARKET will open its first physical store on Regent Street in London and will simultaneously launch its online store in 18 European markets. This first store will be followed by the opening of another store in London, and thereafter store openings in Brussels, Copenhagen and Munich. In spring 2018 ARKET will open its first store in Stockholm, located on Biblioteksgatan.

H\&M Home will also continue its rapid expansion, with approximately 60 new H\&M Home departments planned for 2017. The first standalone H\&M Home stores are planned to open in 2018.

In parallel with the expansion the store portfolio is being optimised as regards the number of stores, store space, rebuilds and relocations, to continually ensure that the store portfolio is right for each market. As a part of this, approximately 100 stores will close, giving a net addition of around 400 new stores for full-year 2017.
India will be a new H\&M online market in 2018. Additional new online markets will open in 2018. Planned new H\&M store markets in 2018 are Uruguay and Ukraine.

## Store count by brand

In the first-half year, the group opened 193 (184) stores and closed 46 (31) stores, i.e. a net increase of 147 (153) new stores. The group had $4,498(4,077)$ stores as of 31 May 2017, of which 204 (171) are operated by franchise partners.

|  | New Stores 2017 (net) |  | Total No of stores |  |
| :---: | :---: | :---: | :---: | :---: |
| Brand | Q2 | Six months | 31 May-2017 | 31 May - 2016 |
| H\&M | 86 | 125 | 4,087 | 3,730 |
| COS | 10 | 15 | 209 | 174 |
| Monki | 0 | -3 | 115 | 113 |
| Weekday | 2 | 1 | 29 | 22 |

| Total | 105 | 147 | 4,498 | 4,077 |

## Store count by region

|  | New Stores 2017 (net) |  | Total No of stores |  |
| :---: | :---: | :---: | :---: | :---: |
| Region | Q2 | Six months | 31 May - 2017 | 31 May - 2016 |
| Europe \& Africa | 32 | 33 | 2,917 | 2,774 |
| Asia \& Oceania | 54 | 79 | 956 | 769 |
| North \& South America | 19 | 35 | 625 | 534 |
| Total | 105 | 147 | 4,498 | 4,077 |

## Tax

The H\&M group's tax rate is expected to be approximately 22.5-23.5 percent for the 2016/2017 financial year. In the first three quarters of this financial year an estimated tax rate of 23.5 percent will be used. The final outcome of the tax rate depends on the results of the group's various companies and the corporate tax rates in each country.

## Financing

As communicated in conjunction with the three-month report on 30 March 2017, the H\&M group signed a revolving credit facility (RCF) of EUR 700 m during the first quarter in order to increase financial flexibility. The RCF, which has not yet been drawn down, was signed on very good terms for a period of five years with an option to extend for a further two years.

## Current quarter

Sales including VAT in June are expected to increase by 7 percent in local currencies compared to the same month last year.

## Accounting principles

The group applies International Financial Reporting Standards (IFRS) as adopted by the EU. This report has been prepared according to IAS 34 Interim Financial Reporting as well as the Swedish Annual Accounts Act.

The accounting principles and calculation methods applied in this report are unchanged from those used in the preparation of the annual report and consolidated financial statements for 2016 which are described in Note 1-Accounting principles.
H \& M Hennes \& Mauritz AB's financial instruments consist of accounts receivable, other receivables, cash and cash equivalents, accounts payable, accrued trade payables, interestbearing securities and currency derivatives. Currency derivatives are measured at fair value based on input data corresponding to level 2 of IFRS 13. As of 31 May 2017, forward contracts with a positive market value amount to SEK 333 m (511), which is reported under other current receivables. Forward contracts with a negative market value amount to SEK 897 m (365), which is reported under other current liabilities. Other financial assets and liabilities have short terms. It is therefore judged that the fair values of these financial instruments are approximately equal to their book values.

The parent company applies the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2 Accounting for Legal Entities, which essentially involves applying IFRS. In accordance with RFR 2, the parent company does not apply IAS 39 to the measurement of financial instruments; nor does it capitalise development expenditure.
For definitions see annual report and consolidated accounts for 2016.

## Risks and uncertainties

A number of factors may affect the H\&M group's results and business. Many of these can be dealt with through internal routines, while certain others are affected more by external influences. There are risks and uncertainties for the H\&M group related to fashion, weather conditions, macroeconomic and geopolitical changes, sustainability issues, foreign currency, tax and different regulations but also in connection with expansion into new markets, the launch of new concepts and how the brand is managed.

For a more detailed description of risks and uncertainties, refer to the administration report and to note 2 in the annual report and consolidated accounts for 2016.
