## Sales

Sales excluding VAT for the H\&M Group for the financial year amounted to SEK 101,393 m $(88,532)$, an increase of 15 percent. Sales including VAT amounted to SEK 118,697 m $(104,041)$, an increase of 14 percent. In local currencies the increase was 4 percent. In comparable units, sales decreased by 5 percent.

Sales excluding VAT in the fourth quarter amounted to SEK $28,011 \mathrm{~m}(26,310)$, an increase of 6 percent. Sales including VAT were SEK $32,758 \mathrm{~m}(30,848)$, an increase of 6 percent. In local currencies sales increased by 3 percent and in comparable units sales decreased by 6 percent.

The Group opened 275 (234*) stores and closed 25 (18) stores during the financial year, a net contribution of 250 stores. In the fourth quarter 159 (129) stores were opened and 11 (9) were closed. The total number of stores in the Group as per 30 November 2009 thus amounted to $1,988(1,738)$, of which 36 are franchise stores, 23 COS stores and 46 stores within the FaBric Scandinavien group.

* including 13 Monki stores and 7 Weekday stores through H\&M's acquisition of FaBric Scandinavien AB.

## Results for the financial year

Gross profit for the financial year amounted to SEK $62,474 \mathrm{~m}(54,468)$, an increase of 15 percent. This corresponds to a gross margin of 61.6 percent (61.5).

The operating profit after deducting selling and administrative expenses was SEK $21,644 \mathrm{~m}(20,138)$, which corresponds to an operating margin of 21.3 percent (22.7).

Operating profit for the financial year has been charged with depreciation amounting to SEK $2,830 \mathrm{~m}(2,202)$.

Consolidated net interest income was SEK $459 \mathrm{~m}(1,052)$.
Profit after financial items amounted to SEK 22,103 $\mathrm{m}(21,190)$, an increase of 4 percent.
For the financial year group profit after a tax rate of 25.9 percent (27.8) amounted to SEK $16,384 \mathrm{~m}(15,294)$, corresponding to earnings per share of SEK 19.80 (18.48), an increase of 7 percent.

Return on shareholders' equity was 42.2 percent (44.3) and return on capital employed was 56.7 percent (61.1).

## Comments on the full year

The sales increase during the year has been weak, which is deemed to be due to several factors, mainly the recession with restrained consumption and the fact that the market has been discount-driven.

Internet and catalogue sales had a positive development during the year.
H\&M Home, fashion for the home, which was launched in February 2009 via internet and catalogue sales was well received. The development of COS, Monki and Weekday has continued according to plan.

In a time of significant exchange rate fluctuations H\&M's policy* to hedge the mark-up on the internal sales of goods to the subsidiaries had a major impact, both negative and positive, on the gross margin in the different quarters of the year. There was a total negative effect of approximately SEK 370 m on the gross profit during the year, corresponding to a negative effect of 0.4 percentage units on the gross margin. Despite this, the company has achieved a gross margin of 61.6 percent (61.5) mainly due to greater surplus capacity at suppliers and a more efficient buying process.

The cost control in the Group has been good during the whole financial year. Selling and administrative expenses increased by 18.9 percent in SEK. In local currencies, the increase was 9 percent which is entirely related to the expansion. Selling and administrative expenses in relation to sales excluding VAT increased to 40.3 percent (38.8) which is explained mainly by weak sales during the year. Costs in comparable stores, which have been well adjusted to the recession, decreased compared to the previous year.

The rate of expansion has been high; a net total of 250 new stores were added during the financial year, which is 25 more stores than was originally planned. The large number of additional stores compared to what was originally planned, is largely due to the economic downturn, which provided opportunities for new store projects and also due to that a number of store contracts scheduled for the first quarter 2010 were completed earlier than planned, allowing these stores to open during the fourth quarter 2009.

Russia and Lebanon became new H\&M markets during the year. The first stores in Moscow opened in the spring, while the first franchise stores in Beirut opened during the autumn; these were all very well received. The opening of H\&M's first stores in Beijing was another example of successful establishments during the year.

The proportion of refurbished stores remained on the same high level as last year. The investments and costs for new and refurbished stores calculated per unit were lower than in the previous year.

* for information on changed currency hedging policy, see page 5.

## Results for the fourth quarter

Gross profit for the fourth quarter amounted to SEK $18,581 \mathrm{~m}(16,416)$, an increase of 13 percent. This corresponds to a gross margin of 66.3 percent (62.4).

Operating profit was SEK $7,909 \mathrm{~m}(6,819)$ for the fourth quarter, an increase of 16 percent. This corresponds to an operating margin of 28.2 percent (25.9).

Profit after financial items was SEK $7,992 \mathrm{~m}(7,114)$, an increase of 12 percent.
Profit after tax amounted to SEK 6,154 m (5,089).

## Comments on the fourth quarter

Sales excluding VAT increased by 6 percent. In local currencies, sales increased by 3 percent, however with great differences between the different sales markets.

The weak sales increase is mainly explained by continued recession with restrained consumption, a discount-driven market and mild weather during the autumn which had a negative effect on sales of weather dependent garments such as jackets and heavy knitwear.

The gross margin, which amounted to 66.3 percent (62.4), has been positively affected by the currency hedging of the mark-up on sales of goods to the subsidiaries with approximately 1.2 percentage units while it during the fourth quarter 2008 affected the gross margin negatively by approximately 1.5 percentage units. Among other things, the gross margin has also been positively affected by greater surplus capacity at suppliers, efficiencies in the buying process and year-end effects that are mainly due to lower shrinkage than estimated. Increased markdowns affected the gross margin negatively by 0.5 percentage units compared to the corresponding quarter the previous year.

Selling and administrative expenses in the quarter amounted to SEK 10,672 m $(9,597)$, an increase of 11 percent.

The 20 percent increase of the stock-in-trade compared to the same time the previous year is mainly due to the expansion and the fact that sales during the quarter have been lower than planned. As sales were weak during the fourth quarter, the stock-in-trade per 30 November 2009 contains a larger proportion of mainly weather dependent garments compared to the same time the previous year. This will lead to larger markdowns during the first quarter 2009/2010 and thereby affect the gross margin negatively compared to the corresponding quarter last year.

## Financial position and cash flow

Consolidated total assets as per 30 November 2009 increased by 6 percent compared to the same time last year and amounted to SEK $54,363 \mathrm{~m}(51,243)$.

During the financial year the Group generated a cash flow of SEK $-3,607 \mathrm{~m}(5,292)$. The operating activities generated a positive cash flow of SEK $17,973 \mathrm{~m}(17,966)$. Cash flow was among other things affected by dividend of SEK $-12,825 \mathrm{~m}(-11,584)$, investments in fixed assets of SEK $-5,686 \mathrm{~m}(-5,193)$ and by short-term investments with a duration of four to twelve months of SEK $-3,001 \mathrm{~m}(4,900)$. Liquid funds and short-term investments amounted to SEK $22,025 \mathrm{~m}(22,726)$.

The stock-in-trade increased by 20 percent compared to the same time last year and amounted to SEK $10,240 \mathrm{~m}(8,500)$. This corresponds to 10.1 percent (9.6) of sales excluding VAT. The stock-in-trade was 18.8 percent (16.6) of total assets.

The equity/assets ratio was 74.7 percent (72.1) and the share of risk-bearing capital was 78.5 percent (75.7).

Shareholders' equity apportioned on the outstanding 827,536,000 shares as per 30 November 2009 was SEK 49.08 (44.65).

## Expansion

H\&M's growth target is to increase the number of stores with 10-15 percent per year with continued high profitability and at the same time increase sales in comparable units. H\&M remains positive towards the future expansion and the company's business opportunities. For the 2009/2010 financial year a net contribution of approximately 240 stores is planned, of which 25 Monki and Weekday stores and 12 COS stores. Most of the Group's new stores are planned for the US, the UK, China, France, Germany and Italy. The proportion of refurbishments of existing stores is expected to remain on the same high level as during 2008/2009.

As previously communicated, the following establishments are planned for 2010:
The first store in Seoul, South Korea, will open during the spring and the second store during the autumn 2010.

Israel will become new franchise market during 2010 where the first three stores are planned to open in Tel Aviv, Jerusalem and Haifa during the spring.

H\&M plans to start online sales in the UK during the autumn 2010.

## Tax

The tax rate for the 2008/2009 financial year was 25.9 percent (27.8). On 1 January 2009 the Swedish rate of corporate tax was reduced to 26.3 percent from its previous level of 28 percent. In the end of the financial year 2008/2009 it was made clear that the new lower Swedish rate of corporate tax affects the Group already for the 2008/2009 financial year. Tax expense for the year was thus SEK 225 m lower than originally estimated.

For the full year of 2009/2010 the effective tax rate for the Group is expected to be approximately 26 percent.

## Employees

The average number of employees, converted into full-time positions, in the Group was 53,476 $(53,430)$, of which $4,874(4,924)$ in Sweden.

## The Parent Company

The parent company had no external sales (136) during the 2008/2009 financial year. Profit after financial items amounted to SEK $15,267 \mathrm{~m}(15,395)$. Investments in fixed assets amounted to SEK -94 m (-185).

## Sales comments on the current quarter

Sales including VAT in local currencies for December 2009 increased by 15 percent compared to the same month previous year. Sales in comparable units increased by 3 percent.

Sales during the period 1-26 January 2010 increased by 13 percent in local currencies compared to the same period last year.

## Changed currency hedging policy

H \& M Hennes \& Mauritz AB changed the internal transfer pricing model within the Group during the second half of 2007. Among other things, this meant the introduction of currency hedging for the mark-up on the internal sales of goods to the subsidiaries in order to secure part of the Group's gross earnings in Swedish kronor.

During a time of significant exchange rate fluctuations in the autumn of 2008 and spring of 2009 the currency hedging for the mark-up on internal sales of goods to the subsidiaries had a major impact, both negative and positive, on gross margin in the different quarters of the year. To avoid such effects in the future the company has decided to end the hedging of the internal mark-up with effect from 1 December 2009 and thereby return to, as previously, only applying currency hedging for the Group's flow of goods.

Although the currency hedging for the internal mark-up to the subsidiaries ended as of 1 December 2009, there are outstanding FX forward contracts entered before
1 December 2009 that will mature during the first half-year 2009/2010. This means that the majority of the internal mark-up for the first quarter is currency-hedged, which is expected to
have a positive impact on the gross margin based on current exchange rates. For the second quarter a somewhat smaller proportion of the internal mark-up is currency-hedged, and is therefore estimated, at current currency rates, to have a smaller effect on the gross margin than in the first quarter 2009/2010.

During the year the part of the Group's flow of goods (around 10 percent) that was not currencyhedged had an impact on the gross margin that varied substantially in the various quarters due to rapid and significant exchange rate fluctuations. In order to decrease such effects in the future the company has therefore also, with effect from 1 December 2009, decided to apply currency hedging for 100 percent for the Group's flow of goods instead of as previously 90 percent.

## Dividend proposal

H\&M's financial goal is to enable the company to continue enjoying good growth and to be prepared to exploit business opportunities. It is essential that the expansion, as in the past, proceeds with continued high degree of financial strength and continued freedom of action.

Based on this policy, the Board of Directors has determined that the total dividend should equal about half of the profit after tax. In addition, the Board may propose that the surplus liquidity can also be distributed.

The Board of Directors will propose to the Annual General Meeting 2010 a dividend of SEK 16.00 per share (15.50), which corresponds to 81 percent (84) of the result after tax.

The Board of Directors is of the opinion that the proposed distribution of earnings is justifiable taking into consideration the financial position and continued freedom of action of the Group and the parent company and observing the requirements that the nature and extent of the business, its risks and future expansion plans impose on the Group's and the parent company's equity and liquidity.

## Annual General Meeting 2010

The Annual General Meeting 2010 will be held on Thursday 29 April, at 3 pm in the Victoria Hall, at the Stockholm International Fairs.

## Annual Report 2008/2009

The Annual Report including the Corporate Governance Report is expected to be published on 25 March 2010, on the same date it will also be published on www.hm.com. The printed Annual Report will be sent out by post to shareholders that have so requested and will also be available at the company's head office.

## Accounting principles

The Group applies International Financial Reporting Standards (IFRS) as adopted by EU. This Interim Report has been prepared according to IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act.

The accounting principles applied in this report are unchanged compared to last year and are described in the Annual Report and Consolidated Financial Statements for 2007/2008, in Note 1 - Accounting principles.

The parent company applies the Swedish Annual Accounts Act and Recommendation RFR 2.2, Accounting for Legal Entities, which essentially means that IFRS is applied. In accordance with Recommendation RFR 2.2, IAS 39 is not applied in the parent company.

## Risks and uncertainties

A number of factors may affect H\&M's results and business. Most of these can be dealt with through internal routines, while certain others are affected more by external influences. There are risks and uncertainties related to fashions, weather situations, quota systems and exchange rates, but also in connection with expansion into new markets, the launch of new concepts, changes in consumer behaviour and handling of the brand.

For a more detailed description of risks and uncertainties, refer to the Administration Report and to Note 2 in the Annual Report and Consolidated Accounts for 2007/2008. There were no significant changes in risks and uncertainties during the period.
