- Online sales in USA planned to be launched at the turn of the year 2011/2012

## Comments by Karl-Johan Persson, CEO

"2010 was a very good year for H\&M with a sales increase of 15 percent. Profit after financial items increased to SEK 25 billion. During the year we improved our market position further with a strengthened customer offering by giving the customers even more fashion and quality at the best price. The economy improved from 2009 but in several countries the economic situation was still uncertain and difficult.

In the fourth quarter, sales increased by a satisfactory 15 percent. The operating margin, of approximately 24 percent, continued to be at a high level. Excluding currency translation effects, profit after financial items was in line with the previous year.

In 2011, we plan to open around 250 stores net in new and existing markets. We will open in five new markets. At the same time we are expanding our online and catalogue sales. At the start of 2011, we are launching the new H\&M Shop Online in the markets where we offer online and catalogue sales already. Shopping experience and functionality have been improved. Around year-end we plan to start online sales in USA, the world's largest online market.

External factors change in the markets of production. Raw material prices have increased; cotton prices for example almost doubled in 2010. Naturally, H\&M has to adapt to changing conditions but always in a way that is in accordance with our business concept - to offer customers fashion and quality at the best price - and in that way increase the opportunities for us to continue to take market shares.

We are optimistic about the future and we plan to increase sales in comparable units in 2011."

## Sales and store openings

Sales including VAT increased by 15 percent in local currencies for the financial year. Converted into SEK, sales increased by 7 percent and amounted to SEK 126,966 m $(118,697)$. Sales in comparable units increased by 5 percent in local currencies. Sales excluding VAT for the financial year increased by 15 percent in local currencies. Converted into SEK, sales excluding VAT increased by 7 percent and amounted to SEK 108,483 m (101,393).

Sales including VAT for the fourth quarter increased by 15 percent in local currencies. Converted into SEK, sales increased by 6 percent and amounted to SEK 34,792 m $(32,758)$. Sales in comparable units increased by 7 percent in local currencies. Sales excluding VAT for the fourth quarter increased by 15 percent in local currencies. Converted into SEK, sales excluding VAT increased by 6 percent and amounted to SEK 29,711 m (28,011).

The Group opened 243 (275) stores and closed 25 (25) stores during the financial year, i.e. a net addition of 218 stores. In the fourth quarter, 138 (159) stores opened and 10
(11) stores closed. The total number of stores in the Group as per 30 November 2010 thus amounted to 2,206 (1,988), of which 50 franchise stores, 35 COS stores, 48 Monki stores, 18 Weekday stores and one Cheap Monday store.

## Results for the financial year

## Comments on the full year

The long-term investment in an improved customer offering by giving the customers even more fashion and quality for the money contributed to a strong sales development during the full year. Sales in local currencies increased by 5 percent in comparable units. Consumer demand recovered slightly in 2010 compared to 2009, but the economy was still weak in several markets.

The gross margin increased by 1.3 percentage units to 62.9 percent (61.6). In the first three quarters the purchasing costs was positively affected by external factors such as increased spare capacity at the suppliers, decreased transportation costs and lower raw material prices. The positive effects on the gross margin in the first three quarters were partly offset in the fourth quarter as the external effects had a reversed effect on the purchasing costs. Increased investments in the customer offering, in order to continue strengthening H\&M's market position in the long term also had a negative effect on the gross margin.

The gross margin for the full year was positively affected by the currency hedging of the mark-up on internal sales of goods to the subsidiaries by approximately 0.3 percentage units. In 2009, these currency hedges had a negative effect on the gross margin of approximately 0.4 percentage units*.
Selling and administrative expenses amounted to SEK $43,610 \mathrm{~m}(40,830)$ during the year, an increase of 7 percent. In local currencies the increase was 15 percent. The cost increase was mainly related to the expansion. During the year the company has also gradually increased the investments in order to strengthen the brand in the long term and to secure future expansion. Costs in relation to sales in comparable units were on the same level as in the previous year.

H\&M had a net addition of 218 new stores during the financial year. The reason that the company opened fewer stores than the originally planned 240 stores was that completion of some shopping malls, in which H\&M had planned to open stores, was halted due to weak economy.

South Korea, Israel and Turkey became new markets during the financial year. The first stores in Seoul and Istanbul and the first franchise stores in Tel Aviv, Jerusalem, and Haifa were all very well received by the customers. The launch of H\&M Shop Online in the UK in the autumn 2010 was well received.

The proportion of refurbished stores remained on the same high level as the previous year. The investments and costs for new and refurbished stores per unit were lower than in the previous year.

## Results for the fourth quarter

Gross profit for the fourth quarter amounted to SEK $18,792 \mathrm{~m}(18,581)$. This corresponds to a gross margin of 63.2 percent (66.3).

Operating profit for the fourth quarter amounted to SEK $7,060 \mathrm{~m}(7,909)$.
This corresponds to an operating margin of 23.8 percent (28.2).
Profit after financial items was SEK $7,178 \mathrm{~m}(7,992)$, a decrease of 10 percent.
Profit after tax was SEK 5,487 m $(6,154)$, corresponding to SEK 3.32 (3.72) per share.

## Comments on the fourth quarter

Sales in the fourth quarter increased by 15 percent in local currencies. Converted into SEK, sales increased by 6 percent. Sales in comparable units increased by 7 percent in local currencies.

During the quarter, the Swedish krona has continued to strengthen against most of the sales countries' local currencies. This has resulted in large negative effects on both sales and profits when converted into SEK.

The gross margin amounted to 63.2 percent (66.3). In the fourth quarter 2009, the gross margin was very high as there was a positive effect of 1.2 percentage units from the former currency hedging policy and also due to the fact that several external factors had a positive effect on purchasing costs.
The gross margin was negatively affected by several external factors that had a reverse effect on purchasing costs in the fourth quarter 2010 compared to the corresponding quarter previous year. The factors affecting were less spare capacity at the suppliers, higher transportation costs and significantly higher raw material prices, e.g. the cotton prices almost doubled in 2010. Increased investments in the customer offering in order to strengthen H\&M's market position also had a negative effect on the gross margin.

H\&M adjusts to changing market conditions over time. The purpose is to always have the best customer offering in each market in order to strengthening H\&M's market position and continue to gain market shares with a continued high profitability.

Mark-downs in relation to sales were on the same level as in the corresponding quarter the previous year.

Selling and administrative expenses in the quarter amounted to SEK 11,732 m (10,672), an increase of 10 percent. The increase in costs in the quarter was mainly related to the expansion but also to an increased activity in the company in order to further strengthen the brand and to lay an even better foundation for profitable growth in the long term. In the quarter, increased investments were made within marketing and IT development as well as for online and catalogue sales, where the company sees great potential for future growth. Also an increase of the staffing in the stores had a certain effect on costs in the fourth quarter.

Profit after financial items amounted to SEK 7,178 m (7,992). Adjusted for currency exchange translation effects arising when the results in H\&M's various markets are converted from the local currency into Swedish kronor, the profit after financial items would have been in line with the previous year

The stock-in-trade increased by 12 percent compared to the same time the previous year and amounted to SEK $11,487 \mathrm{~m}(10,240)$. In local currencies, the increase was 16 percent. The composition of the closing stock-in-trade was good with a larger proportion of new garments compared to same time the previous year. The company estimates that markdowns in relation to sales during the first quarter of 2011 will be on the same level as in the first quarter 2010.

As previously communicated in a press release H\&M acquired, in November 2010, the remaining 40 percent of the shares in FaBric Scandinavien AB for SEK 8 m . The brands Weekday, Monki and Cheap Monday will continue to be operated as separate concepts.

## Financial position and cash flow

Consolidated total assets as per 30 November 2010 amounted to SEK 59,182 m $(54,363)$, an increase of 9 percent compared to the same time the previous year.
During the financial year, the current operations generated a positive cash flow of SEK $21,838 \mathrm{~m}(17,973)$. Cash flow was among other things affected by dividends of SEK $-13,239 \mathrm{~m}(-12,825)$, investments in fixed assets of SEK $-4,959 \mathrm{~m}(-5,686)$ and by short-term investments with a duration of four to twelve months of SEK $-5,166 \mathrm{~m}$ $(-3,001)$. During the financial year, the Group generated a cash flow of SEK $-1,530 \mathrm{~m}$ $(-3,607)$. Liquid funds and short-term investments amounted to SEK $24,858 \mathrm{~m}(22,025)$.

The stock-in-trade amounted to SEK 11,487 m $(10,240)$, corresponding to 10.6 percent (10.1) of sales excluding VAT. The stock-in-trade was 19.4 percent (18.8) of total assets.

The equity/assets ratio was 74.6 percent (74.7) and the share of risk-bearing capital was 76.2 percent (78.5).

Shareholders' equity apportioned on the outstanding $1,655,072,000 * *(1,655,072,000)$ shares as per 30 November 2010 was SEK 26.69 (24.54).

## ** Share split

In June 2010 H\&M implemented a 2:1 share split, where each share was split into two shares of the same class. The first day of trading in the split shares was 1 June 2010. Following the implemented share split the new number of shares is $1,655,072,000$, of which 194,400,000 are series A shares and 1,460,672,000 are series B shares.

Earnings per share has been calculated based on the new number of shares. According to IAS 33 Earnings Per Share, the earnings per share is adjusted retroactively for all reported periods.

## Expansion

H\&M remains positive towards the future expansion and the company's business opportunities.

H\&M's growth target is to increase the number of stores with 10-15 percent per year with continued high profitability and at the same time increase sales in comparable units. For the 2010/2011 financial year a net addition of approximately 250 stores is planned. China, the UK and USA will be the largest expansion markets for H\&M in 2011.

The proportion of refurbishments of existing stores is expected to remain on the same high level as during 2009/2010.
The company sees great growth potential within online and catalogue sales where the investments continue. In the beginning of 2011 a new website, www.hm.com, is launched with a new H\&M Shop Online, which will offer better customer experience and functionality in H\&M's present online markets. The new website, which will offer improved functionality and increased inspiration, is also launched in countries that can not yet shop H\&M's garments online, in order to increase customer traffic to the stores.

At the turn of the year 2011/2012, H\&M plans to launch H\&M Shop Online in USA, the largest online market in the world. H\&M will thus offer online and catalogue sales in nine countries; Sweden, Norway, Denmark, Finland, the Netherlands, Germany, Austria, the UK and USA. The aim is to offer online and catalogue sales in all H\&M markets in the future.
As previously communicated, the following establishments are planned for 2011:
Romania, Croatia and Singapore will become new H\&M countries in 2011 with store openings in Bucharest, Zagreb and Singapore.
The new franchise markets for 2011 are Morocco and Jordan with store openings in Casablanca and Amman.

The first COS store in Sweden will open in Stockholm in the summer 2011.

## Tax

The tax rate for the financial year 2009/2010 amounted to 25.3 percent (25.9)
For the financial year 2010/2011 the tax rate is estimated to amount to approximately 26 percent.

## Employees

The average number of employees in the Group, converted into full-time positions, was $59,440(53,476)$, of which $5,398(4,874)$ are employed in Sweden.

## Parent company

The parent company's external sales amounted to SEK $6 \mathrm{~m}(-)$ for the financial year. Profit after financial items amounted to SEK $14,868 \mathrm{~m}(15,267)$. Investments in fixed assets amounted to SEK 100 m (94).

## Comments on the current quarter

Sales in December 2010 increased by 8 percent in local currencies compared to the same month the previous year. Sales in comparable units were on the same level as in the same month the previous year. Sales in December were affected negatively by heavy snow in many H\&M markets.

Sales during the period 1 - 25 January 2011 increased by 9 percent in local currencies compared to the same period last year.

## Dividend proposal

H\&M's financial goal is to enable the company to continue enjoying good growth and to be prepared to exploit business opportunities. It is essential that the expansion, as in the past, proceeds with continued high degree of financial strength and continued freedom of action.

Based on this policy, the Board of Directors has determined that the total dividend should equal about half of the profit after tax. In addition, the Board may propose that any surplus liquidity can also be distributed.

The Board of Directors will propose to the Annual General Meeting 2011 a dividend of SEK 9.50 per share (8.00), which corresponds to 84 percent (81) of the result after tax.

The Board of Directors is of the opinion that the proposed distribution of earnings is justifiable taking into consideration the financial position and continued freedom of action of the Group and the parent company and observing the requirements that the nature and extent of the business, its risks and future expansion plans impose on the Group's and the parent company's equity and liquidity.

## H\&M Incentive Program

On 20 October 2010 H\&M held an Extraordinary General Meeting regarding the establishment of an incentive programme for all employees of the H\&M Group.

The meeting resolved to mandate the Board of Directors to introduce an incentive programme known as the H\&M Incentive Program, which will cover all employees of the H\&M Group based on the same principles. The Board was further mandated to draw up the necessary detailed rules of the programme and otherwise to take the action required to implement the programme.

The programme was initiated by Stefan Persson and family, who will donate 4,040,404 H\&M shares worth around SEK 1 billion (based on the share price on 6 September 2010) to a newly formed Swedish foundation, Stiftelsen H\&M Incentive Program (H\&M Incentive Program Foundation).

Each year the foundation will normally receive an amount from the H\&M Group which corresponds to 10 percent of the increase in dividend compared with the previous year's dividend. The foundation will manage the funds, which will be invested in $\mathrm{H} \& \mathrm{M}$ shares.

All employees throughout the H\&M Group, in all countries, regardless of their position and salary level, will be included in the programme according to the same basic principle - based on length of employment, full-time or part-time. The number of years that the employee has worked for the company will be taken into account in the qualification period, which will be five years unless local rules require otherwise. Payouts will commence at the age of 62 . However, it will also be possible for payouts to be made after ten years of employment - but no earlier than 2021.

The programme will start in 2011. The first units in the foundation will be allocated to employees during 2011. If the 2011 Annual General Meeting approves the proposed dividend of SEK 9.50 per share then the contribution to the foundation will be SEK 248 m , which will be recognised as a cost in the second quarter 2011.

## Annual General Meeting 2011

The Annual General Meeting 2011 will be held on Thursday 28 April, at 3 pm in the Victoria Hall, at the Stockholm International Fairs.

## Annual Report 2009/2010

The Annual Report and the Corporate Governance Report is expected to be published on 24 March 2011 on www.hm.com and will be sent out by post to shareholders that have so requested and will also be available at the company's head office.

## Accounting principles

The Group applies the International Financial Reporting Standards (IFRS) as adopted by the EU. This report has been prepared according to IAS 34 Interim Financial Reporting as well as the Swedish Annual Accounts Act.

The accounting principles used in the preparation of this report are described in the Annual Accounts and Consolidated Accounts for 2008/2009 in Note 1 Accounting Principles.

Starting in 2009/10 the Group is applying IFRS 8 Operating Segments for its segment reporting. According to this standard, segment information is to be presented based on the internal segments determined by executive management. The new standard has not required any changes to be made to the way segments were reported previously. The Group's business consists primarily of the sale of clothes and cosmetics to consumers. Internal reporting is broken down by country.

In its segment reporting the Group has grouped countries together into three geographical areas: the Nordic Region, the Euro Zone excluding Finland and the Rest of the World. The financial characteristics are similar in each segment. The parent company and other subsidiaries without external sales are reported in a separate, Group function segment.

A statement of consolidated comprehensive income is also presented containing items previously reported in the statement of shareholders' equity that do not constitute shareholder transactions.

The parent company applies the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2 Accounting for Legal Entities, which essentially involves applying IFRS. In accordance with RFR 2 the parent company does not apply IAS 39.

Earnings per share has been calculated based on the new number of shares. According to IAS 33 Earnings Per Share, the earnings per share is adjusted retroactively for all reported periods.

## Risks and uncertainties

A number of factors may affect H\&M's results and business. Most of these can be dealt with through internal routines, while certain others are affected more by external influences. There are risks and uncertainties related to fashion, weather situations, climate changes, trade interventions and exchange rates, but also in connection with expansion into new markets, the launch of new concepts, changes in consumer behaviour and handling of the brand.

For a more detailed description of risks and uncertainties, refer to the Administration Report and to Note 2 in the Annual Report and Consolidated Accounts for 2008/2009. There were no significant changes in risks and uncertainties during the period.

## KEY RATIO DEFINITIONS

Return on equity: Profit for the year in relation to average shareholders' equity.
Return on capital employed: Profit after financial items plus interest expense in relation to average shareholders' equity plus average interest-bearing liabilities.
Share of risk-bearing capital: Shareholders' equity plus deferred tax liability in relation to the balance sheet total.
Equitylassets ratio: Shareholders' equity in relation to the balance sheet total.
Equity per share: Shareholders' equity divided by number of shares.
P/E ratio: Price per share divided by earnings per share.
Comparable units: Comparable units comprise the stores and the internet and catalogue sales countries that have been in operation for at least one financial year. H\&M's financial year is from 1 December to 30 November.

All figures within parenthesis refer to the corresponding period or point of time the previous year.
