## Comments on the third quarter by Karl-Johan Persson, CEO

"H\&M continues to gain market share in a challenging environment for the fashion retail industry. This shows H\&M's strong market position and we see it as a proof that customers appreciate our work on the customer offering.

We have great respect for the current economic climate. In this situation, it is extra important to have a longterm perspective and to always make sure that we give customers the best combination of fashion and quality for their money in every market.

We have a strong business concept, a strong financial position and we are continuing to grow with high profitability. We are increasing our expansion for full-year 2011 to approximately 265 new stores net, from the originally planned 250 ."

## Comments on the third quarter

Sales including VAT increased by 5 percent in local currencies. Converted into SEK, sales amounted to SEK $31,511 \mathrm{~m}(31,475)$. Sales are considered satisfactory as these should be seen in the light of high comparables and unfavourable weather in several markets in Europe during the quarter. H\&M has continued to gain market share during a period in which the fashion retail industry was negatively affected by economic uncertainty in a number of countries. H\&M has strengthened its position vis-à-vis its competitors and the increased market share is a result of H\&M's long-term work on its customer offering. The long-term strategy is to always give customers the best offering in each market; i.e. the best combination of fashion and quality for their money.

There is intense competition for consumer spending and H\&M's view is that the trend of multiple price activities and special offers in the fashion retail industry continued into the third quarter and was greater than in the corresponding quarter last year.
The gross margin amounted to 58.6 percent (60.5). Unfavourable external factors during the buying period for the third quarter led to higher purchasing costs which affected the gross margin negatively in the quarter. These factors were primarily cost inflation in the sourcing markets, including high cotton prices, but also a negative US dollar effect.
Markdowns in relation to sales were at the same level as in the corresponding quarter last year.

Selling and administrative expenses amounted to SEK 11,059 m (10,623), an increase of 4 percent. In local currencies the increase was 9 percent. The cost increase is mainly due to the expansion, but also to the long-term investments in marketing, IT and online and catalogue sales in order to further strengthen H\&M's market position in the long term and to secure future expansion. Cost control in the Group remains good. Costs in comparable stores decreased compared to the corresponding period last year.

Profitability remained strong with an operating margin of 17.5 percent (21.0). The strengthening of the Swedish krona compared to the corresponding period last year continued to have a negative impact on reported profits in SEK, which after financial items amounted to SEK $4,850 \mathrm{~m}(5,735)$.
The stock-in-trade increased by 26 percent compared to the same date the previous year and amounted to SEK $13,310 \mathrm{~m}(10,545)$. In local currencies, the increase was 28 percent. The stock increase is due partly to expansion and higher purchasing costs and partly to a lower than planned increase in sales during the quarter. Stock-in-trade relative to sales excluding VAT, for the rolling twelve months, was 12.2 percent (9.9). Even though the level of the stock-in-trade was somewhat higher than planned, the composition is considered to be well balanced. The higher level of stock combined with the fact that September sales have been negatively affected by the unseasonably warm weather means that sales in October and November will be decisive for the markdown level in the fourth quarter.

## Financial position and cash flow

Consolidated total assets as per 31 August 2011 amounted to SEK $53,532 \mathrm{~m}(54,397)$, a decrease of 2 percent compared to the same time the previous year.

During the nine-month period, the Group generated a cash flow of SEK $-3,024 \mathrm{~m}$ (860). The current operations generated a positive cash flow of SEK $11,226 \mathrm{~m}(16,181)$. Cash flow was among other things affected by dividends of SEK -15,723 m (-13,239), investments in fixed assets of SEK $-3,288 \mathrm{~m}(-3,061)$ and by changes in short-term investments with a duration of four to twelve months of SEK 4,791 m (979). Liquid funds and short-term investments amounted to SEK $16,895 \mathrm{~m}(21,362)$.

The stock-in-trade increased by 26 percent compared to the same time the previous year and amounted to SEK $13,310 \mathrm{~m}(10,545)$. This corresponds to 12.2 percent (9.9) of sales excluding VAT, rolling twelve months. The stock-in-trade was 24.9 percent (19.4) of total assets.

The equity/assets ratio was 71.4 percent (72.3) and the share of risk-bearing capital was 72.9 percent (75.8).

Shareholders' equity apportioned on the outstanding 1,655,072,000 (1,655,072,000) shares as per 31 August 2011 was SEK 23.09 (23.78).

## Expansion

H\&M remains positive as regards future expansion and the company's business opportunities.

The expansion plan for the financial year 2010/2011 has been revised upward from 250 to approximately 265 new stores net. This is because H\&M is opening more stores primarily in China, Romania and Croatia than was planned at the beginning of the year.

China, the UK, USA and Germany will be the largest expansion markets for H\&M in 2011.

The Group plans to open 156 stores (138) and close 10 (10) stores during the fourth quarter.

H\&M's first store in Singapore on Orchard Road was very well received when it opened on 3 September 2011. Sales in the country's first store have surpassed the company's high expectations.

Morocco and Jordan are scheduled to become new franchise markets at the end of autumn 2011.

COS and Monki launched online sales in 18 markets at the end of September 2011.
H\&M will be opening its first store in Bulgaria in March 2012. The store will be located at the best business location in The Mall, a fashion-conscious shopping centre, in the capital city Sofia.

Indonesia and Thailand will be new franchise markets in cooperation with the franchisee J.S. Gill. The first stores are planned to open in 2012 in Jakarta and in Bangkok.

The start of online sales in the US, the world's largest online market, will now take place in autumn 2012 rather than spring 2012 as more time is needed to ensure the best possible reception at the launch.

Tax
For the financial year 2010/2011 the tax rate is estimated to amount to approximately 26 percent.

## Parent company

The parent company's external sales amounted to SEK $4 \mathrm{~m}(-)$ for the first nine months. Profit after financial items amounted to SEK $3,741 \mathrm{~m}(3,606)$. Investments in fixed assets amounted to SEK 77 m (50).

## Comments on the current quarter

The autumn collections have been well received even though the start of the season has been negatively affected by unseasonably warm weather in large parts of Europe. Sales in the period $1-27$ September 2011 increased by 3 percent in local currencies compared to the same period last year.

## Accounting principles

The Group applies the International Financial Reporting Standards (IFRS) as adopted by the EU. This report has been prepared according to IAS 34 Interim Financial Reporting as well as the Swedish Annual Accounts Act.

## Risks and uncertainties

There are risks and uncertainties related to fashion, weather situations, changes in consumer behaviour, climate changes, trade interventions, external factors in production countries and foreign currency, but also in connection with expansion into new markets, the launch of new concepts and how the brand is managed.

For a more detailed description of risks and uncertainties, refer to the Administration Report and to Note 2 in the Annual Report and Consolidated Accounts for 2009/2010. There were no significant changes in risks and uncertainties during the period.

## REVIEW REPORT

H \& M Hennes \& Mauritz AB (publ), corporate identity number 556042-7220

## Introduction

We have reviewed the interim report for H \& M Hennes \& Mauritz AB (publ) as of 31 August 2011 and for the nine-month period which ended on this date. It is the responsibility of the Board of Directors and the Managing Director to prepare and present this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express an opinion on this interim report based on our review.

## Focus and scope of review

We conducted our review in accordance with the Swedish Standard on Review Engagements SÖG 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope compared with the focus and scope of an audit conducted in accordance with the Standards on Auditing in Sweden (RS) and the generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the opinion expressed based on a review does not provide the same level of assurance as an opinion expressed on the basis of an audit.

## Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the interim report, in all material aspects, was not prepared in accordance with IAS 34 and the Swedish Annual Accounts Act in the case of the Group and in accordance with the Annual Accounts Act in the case of the parent company.
