## Comments by Karl-Johan Persson, CEO

"The year started well and the positive trend continued in the second quarter. In the second quarter we saw strong sales and profitability development, with a profit increase of 23 percent. The spring collections have been well received by our customers as shown by our increased market share in a fashion retail market that continues to be challenging. H\&M's attractive customer offering is appreciated by customers in all our 44 markets, in big cities as well as small cities - and in both countries with strong economic growth and countries with a tough macroeconomic climate.

Our expansion plan remains intact. We plan to open around 275 new stores net during the full-year. We continue to open new stores in all current markets and we will add five new markets during the year: Bulgaria, Mexico, Latvia, Malaysia and Thailand. In addition, online sales will be launched in the autumn in the US, the world's largest online market."

## Comments on the second quarter

Sales increased by 12 percent in local currencies and 2 percent in comparable units which proves that the spring collections have been well received. Sales have been good in most markets during the quarter and $\mathrm{H} \& \mathrm{M}$ has continued to gain market share. The second quarter is normally characterised by large calendar and weather effects between the months, and this year these effects are even more significant. It is therefore important to view sales development over a full quarter or a season rather than looking at individual months.

Many countries are still in a challenging macro-economic situation with austerity measures and restrained consumption. The fact that H\&M continues to gain market share even in these challenging markets is a clear sign that H\&M's strong offering is appreciated by customers worldwide.

H\&M's gross margin is a result of many different factors, internal as well as external, together with the decisions that H\&M makes in line with its strategy to always have the best customer offering in each market.

In the quarter, the gross margin was unchanged compared to the corresponding quarter last year and amounted to 61.7 percent (61.7). Overall, the effects of the earlier significantly negative external factors, such as the cotton price, were more or less neutralised. In addition, for purchases made for the second quarter, the US dollar was relatively neutral, but will become negative for purchases for the second half-year. H\&M will however, continue its longterm perspective and always offer customers the best combination of fashion and quality at the best price.

Markdowns in relation to sales were at the same level as in the same quarter last year.
H\&M's long-term investments - aimed at broadening the Group's total offering - continue, including work on the new store chain \& Other Stories which will be launched in 2013. These investments represented a smaller proportion of sales in the second quarter compared to the first quarter 2012.

Cost control in the Group remains good. Costs in comparable stores as a proportion of sales decreased compared to the second quarter 2011. Selling and administrative expenses in the quarter amounted to SEK $12,653 \mathrm{~m}(11,458)$, an increase of 10 percent which is mainly explained by the expansion. In local currencies, the increase was 8 percent. In the corresponding quarter last year, there was a provision of SEK 248 m related to the incentive programme, H\&M Incentive Program*, the majority of which was booked as selling and administrative expenses.
The stock-in-trade increased by 8 percent compared to the same time last year and amounted to SEK $11,299 \mathrm{~m}(10,414)$. In local currencies, the increase was 6 percent. The increase in stock-in-trade is explained by the expansion. The level and the balance of the stock-in-trade as at 31 May 2012 are deemed to be good. The stock-in-trade represents 9.6 percent (9.6) of sales excluding VAT, rolling twelve months. The stock-in-trade was 22.1 percent (21.9) of total assets.

## Financial position and cash flow

Consolidated total assets as per 31 May 2012 amounted to SEK 51,044 m (47,626), an increase of 7 percent compared to the same time the previous year.
The current operations generated a positive cash flow of SEK 10,668 m (8,547). Cash flow was also affected by dividends by SEK $-15,723 \mathrm{~m}(-15,723)$, investments in fixed assets of SEK $-2,620 \mathrm{~m}(-2,128)$ and by changes in short-term investments with a duration of four to twelve months of SEK $6,958 \mathrm{~m}(6,963)$. During the six-month period, the Group generated a cash flow of SEK $-748 \mathrm{~m}(-2,226)$. Liquid funds and short-term investments amounted to SEK $13,543 \mathrm{~m}(15,207)$.

The equity/assets ratio was 71.5 percent (71.3) and the share of risk-bearing capital was 73.5 percent (73.0).

Shareholders' equity apportioned on the outstanding $1,655,072,000(1,655,072,000)$ shares as per 31 May 2012 was SEK 22.06 (20.51).

[^0] for the financial year of 2011 will be made to the H\&M Incentive Program in 2012.

## Expansion

H\&M remains positive as regards to the future expansion and the Group's business opportunities.

H\&M's growth target remains intact. The growth target is to increase the number of stores by $10-15$ percent per year with continued high profitability, while at the same time increasing sales in comparable units. For the 2011/2012 financial year a net addition of approximately 275 stores is planned. China, the US and the UK are expected to be the largest expansion markets for H\&M in 2012. There are also still great opportunities for expansion in markets such as Germany, France and Italy.

In 2012 five new markets will be added: Bulgaria (opened in March), Mexico, Latvia, Malaysia and, via franchise, Thailand.

In autumn 2012 H\&M will start online sales in the US, the world's largest online market.
Expansion continues for the Group's other brands COS, Monki, Weekday and Cheap Monday. COS, for example, will open stores in six new markets in 2012. The first COS stores in Helsinki and Milan opened in May, while Warsaw's first store opened in June. All the stores were well received. COS will also open in Hong Kong and Austria during the summer and Kuwait in autumn 2012. The opening in Kuwait will be in cooperation with the franchisee Alshaya. The H\&M Home concept will also continue to expand.

A completely new independent chain of stores will open in 2013 under the name \& Other Stories. The store chain will be a completely new and exciting complement to H\&M and the Group's other brands.

The first three H\&M stores in Tallinn, Estonia will open in autumn 2013. As communicated previously, Indonesia will become a new franchise market in 2013.

Tax
For the financial year 2011/2012 the tax rate is expected to be in the range of $25-26$ percent, depending on the results of the subsidiaries in each country.
