## Comments by Karl-Johan Persson, CEO

"H\&M continued to gain market share and increased sales by 10 percent in local currencies in the quarter which proves that we have an attractive offering that is appreciated by customers worldwide. Conditions in the fashion retail industry continued to be challenging in many markets - both as regards the weather and the macroeconomic climate. The profit increase in the third quarter was damped by large negative currency translation effects. But viewed over the nine-month period, profit after financial items increased by 11 percent to more than SEK 15.6 billion.

We are continuing our long-term work by constantly making our customer offering even stronger and at the same time building for the future with many new initiatives such as \& Other Stories, a new fashion brand that will be launched in separate stores and online during spring 2013. The new brand is aimed at women with an interest in fashion who want to create their own personal style, and focuses on the total look. \& Other Stories will offer a broad range of shoes, bags, jewellery, beauty products, lingerie and clothes - everything in carefully selected qualities with great attention to details.

We see significant opportunities for continued growth both in stores and online. We are ramping up the rate of expansion for full-year 2012 to 300 new stores net from the previously planned 275 . We are looking forward to taking our first step into the southern hemisphere next year by opening our first store in South America, which will be a flagship store in Santiago de Chile. The online market is increasingly growing, with particularly strong growth in mobile shopping via smartphones and tablets. To accommodate this rapid development, from as early as the beginning of next year we will also offer a completely mobile adapted H\&M shop online in H\&M's existing eight online markets. Meantime, we have intensified preparations for the rollout of H\&M shop online to other markets in the Group. These investments - and as we need more time for the launch of our online shop for the US - mean that the launch of H\&M shop online in the US has been moved to summer 2013."

## Comments on the third quarter

In the quarter, H\&M continued to gain market share in a very challenging market, which proves that H\&M's strong offering is appreciated by customers worldwide. Sales increased by 10 percent in local currencies and were unchanged in comparable units. Converted into SEK, sales including VAT increased by 7 percent. Conditions for the fashion retail industry continued to be challenging in many markets in the third quarter - both as regards the weather and the macroeconomic climate, with austerity measures and restrained consumption. The quarter started with two months of strong sales development in June and July, while sales in August were lower than planned. The company considers weaker sales in August to have been primarily due to the extreme heat wave in a number of markets in Europe.
In the quarter, the gross margin amounted to 58.2 percent (58.6). H\&M's gross margin is a result of many different factors, internal as well as external, and is also affected by the decisions that H\&M makes in line with its strategy to always have the best customer offering in each individual market. For purchases made for the third quarter, an easing of cotton prices had a neutral to positive effect on purchasing costs compared to the corresponding purchasing period the previous year. This has, however, been offset to some extent by cost inflation, primarily in Asia and by a stronger US dollar.

Markdowns in relation to sales were at the same level as in the corresponding quarter last year.

H\&M's long-term investments - aimed at broadening the Group's total offering continues including work on the new store chain \& Other Stories which will be launched in spring 2013. These long-term investments represented a slightly higher proportion of cost in relation to sales in the third quarter compared to the second quarter 2012.

Cost control in the Group remains good. Selling and administrative expenses in the quarter amounted to SEK $11,969 \mathrm{~m}(11,059)$, an increase of 8 percent which is mainly explained by the expansion. In local currencies, the increase was 11 percent.

During the third quarter, the strong appreciation of the Swedish krona primarily against the euro, led to large negative currency translation effects on sales and profits in the quarter when converting local currencies into SEK, H\&M's reporting currency. Profit after financial items has consequently been negatively affected by approximately SEK 200 m compared to the third quarter 2011.

The stock-in-trade increased by 1 percent compared to the same time last year and amounted to SEK $13,501 \mathrm{~m}(13,310)$. In local currencies, the increase was 3 percent. The level and the balance of the stock-in-trade as at 31 August 2012 are deemed to be good. The stock-in-trade represents 11.3 percent (12.2) of sales excluding VAT for rolling twelve month period. The stock-in-trade was 25.5 percent (24.9) of total assets.

## Financial position and cash flow

Consolidated total assets as per 31 August 2012 amounted to SEK $52,974 \mathrm{~m}(53,532)$, a decrease of 1 percent compared to the same time the previous year.

The current operations generated a positive cash flow of SEK $13,044 \mathrm{~m}(11,226)$. Cash flow for the period was also affected by dividends by SEK $-15,723 \mathrm{~m}(-15,723)$, investments in fixed assets of SEK $-4,313 \mathrm{~m}(-3,288)$ and by changes in short-term investments with a duration of four to twelve months of SEK $5,525 \mathrm{~m}(4,791)$. During the nine-month period, the Group generated a cash flow of SEK -1,454 m (-3,024). Liquid funds and short-term investments thus amounted to SEK $13,552 \mathrm{~m}(16,895)$.

The equity/assets ratio was 72.3 percent (71.4) and the share of risk-bearing capital was 74.0 percent (72.9).

Shareholders' equity apportioned on the outstanding 1,655,072,000 (1,655,072,000) shares as per 31 August 2012 was SEK 23.13 (23.09).

## Expansion

H\&M remains positive as regards to the future expansion and the Group's business opportunities.
H\&M's growth target remains intact. The growth target is to increase the number of stores by $10-15$ percent per year with continued high profitability, while at the same time increasing sales in comparable units.
For the 2011/2012 financial year the expansion plan is being ramped up to 300 new stores net from the previously planned 275 . China and the US are expected to be the largest expansion markets for $\mathrm{H} \& \mathrm{M}$ in 2012. There are also still great opportunities for expansion in markets such as Russia, Italy, Poland and the UK.

In 2012 five new markets will be added. H\&M opened its first H\&M store in Bulgaria in March and in Latvia and Malaysia in September. Thailand will open its first H\&M store via franchise by the end of September. The first H\&M store in Mexico will open towards the end of the financial year.

Expansion continues for the Group's other brands COS, Monki, Weekday and Cheap Monday. COS, for example, will open stores in six new markets in 2012. In the third quarter the first COS stores opened in Poland, Hong Kong and Austria, while Weekday opened its first store in the Netherlands. During the autumn COS and Monki will open their first stores on the Chinese mainland and Kuwait will also get its first COS store (via franchise). During the spring 2013, COS will open its first store in Norway, Monki and Weekday will open its first stores in Japan and Monki will open its first store in France. In addition to this, Weekday will launch online shopping in 18 countries in 2013. H\&M Home will also continue to expand.

In spring 2013 the Group will launch \& Other Stories, a new fashion brand that will be launched in separate stores and online in selected markets in Europe. The new brand focuses on the total look and is aimed at women with an interest in fashion who want to create their own personal style. \& Other Stories will offer a broad range of shoes, bags, jewellery, beauty products, lingerie and clothes in a wide range of prices in a higher price segment with carefully selected qualities and great attention to details. As with the rest of the H\&M Group, \& Other Stories will continue to offer the best price for comparable items. The various collections are being created by a group of in-house designers from studios in Paris and Stockholm.

The online market is increasingly growing, with particularly strong growth in mobile shopping via smartphones and tablets. To accommodate this rapid development, from as early as the beginning of next year the Group will also offer a completely mobile adapted H\&M shop online in H\&M's existing eight online markets. Meantime, H\&M has intensified work on the rollout of $\mathrm{H} \& \mathrm{M}$ shop online to other markets in the Group. As a result of these investments - and as more time is needed to adapt H\&M shop online for the US market the launch of H\&M shop online in the US has been moved from autumn 2012 to summer 2013.

As previously communicated, the first H\&M store in South America will open in Santiago de Chile during the first half of 2013. The store will be a flagship store in the best location in the Costanera Center shopping mall.

The first three H\&M stores in Tallinn, Estonia will open in autumn 2013. During autumn 2013 the first three H\&M stores will also open in Vilnius in Lithuania. As communicated previously, Indonesia will become a new franchise market in 2013.

For the financial year 2011/2012 the tax rate is expected to be in the range of $25-26$ percent, depending on the results of the subsidiaries in each country.

The parent company's external sales amounted to SEK 5 m (4) for the first nine months of the financial year. Profit after financial items amounted to SEK $2,824 \mathrm{~m}(3,741)$. Investments in fixed assets amounted to SEK 87 m (77).

## Introduction

We have reviewed the interim report for H \& M Hennes \& Mauritz AB (publ) as of 31 August 2012 and for the nine-month period which ended on this date. It is the responsibility of the Board of Directors and the Managing Director to prepare and present this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express an opinion on this interim report based on our review.

## Focus and scope of review

We conducted our review in accordance with the Swedish Standard on Review Engagements SÖG 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope compared with the focus and scope of an audit conducted in accordance with the International Standards on Auditing and the generally accepted auditing practices.

The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the opinion expressed based on a review does not provide the same level of assurance as an opinion expressed on the basis of an audit.

## Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the interim report, in all material aspects, was not prepared in accordance with IAS 34 and the Swedish Annual Accounts Act in the case of the Group and in accordance with the Annual Accounts Act in the case of the parent company.
