# H \& M HENNES \& MAURITZ AB SIX-MONTH REPORT 

1 December 2012-31 May 2013

## FIRST HALF-YEAR

- The H\&M Group's sales including VAT increased in local currencies by 5 percent during the first six months of the financial year. Sales in comparable units decreased by 4 percent. Converted into SEK, sales excluding VAT amounted to SEK $60,027 \mathrm{~m}(59,491)$, an increase of 1 percent.
- Profit after financial items amounted to SEK $9,359 \mathrm{~m}(10,754)$. The Group's profit after tax amounted to SEK $7,113 \mathrm{~m}(7,958)$, corresponding to SEK 4.30 (4.81) per share. Substantial negative currency translation effects and long-term investments during the period make it difficult to compare the results with the corresponding period last year.

## SECOND QUARTER

- The H\&M Group's sales including VAT increased in local currencies by 5 percent during the second quarter. Converted into SEK, sales excluding VAT amounted to SEK $31,635 \mathrm{~m}(31,658)$. Sales in comparable units decreased by 4 percent.
- Continued substantial negative currency translation effects as a result of the continued strengthening of the Swedish krona against most sales countries' currencies. The reported sales of SEK 36,923 m including VAT would have been approximately SEK 1.8 billion higher using the same currency rates as in Q2 2012.
- Gross profit amounted to SEK 19,337 m (19,546), corresponding to a gross margin of 61.1 percent (61.7). Increased markdowns have negatively affected the gross margin by 0.9 percentage points in relation to sales compared to the corresponding quarter last year.
- Profit after financial items amounted to SEK 6,125 m (7,053). The Group's profit after tax amounted to SEK 4,655 $\mathrm{m}(5,219)$, corresponding to SEK 2.81 (3.15) per share, a decrease of 11 percent.
- A successful start for \& Other Stories and continued very good performance by COS.
- Sales have got off to a good start in June. Sales increased by 14 percent in local currencies in the period 1 June - 17 June 2013 compared to the same period last year.

## Comments by CEO Karl-Johan Persson

"The second quarter has been a period of intense activity, with the opening of nearly 100 new stores. We have for example, opened our first store in the southern hemisphere in South America - in Santiago de Chile. The store has had a fantastic reception from customers. We are continuing our strong expansion in Asia where we now have 200 stores and where we are now starting to establish our newer brands like COS and Monki.

This quarter has been marked by substantial negative currency translation effects, which have had a negative impact on both sales and profits in SEK. Sales in local currencies increased by 5 percent. Although sales remained strong in Asia, overall sales were not satisfactory mainly due to the continued challenging situation for the fashion retail industry as well as unfavourable weather in March and a couple of weeks into April in many of our big markets.

At $\mathrm{H} \& \mathrm{M}$ we take a long-term perspective and we are continuing with our investments in IT, online sales, new brands and broadening the range. Although most of these long-term investments have not yet generated revenues, we see them as wise and necessary - all in order to build an even stronger $\mathrm{H} \& \mathrm{M}$. The fantastic response that our new brand \& Other Stories has had from customers is one example of an investment that has already borne fruit. During the quarter we opened our first seven stores of this new brand, in cities such as London, Paris and Milan. COS continues to perform very well and the strong expansion of the brand continues both in existing markets and in new markets such as Turkey and Switzerland, where we will be opening COS stores in the autumn.

There is great potential in the growing online market. We are looking forward to launching our online sales in the US in August. In parallel, we are continuing our work on the global roll-out of H\&M's online store, with the aim of adding several new online countries during 2014."

## Sales and store openings

Sales including VAT increased by 5 percent, in local currencies, in the first six months of the financial year. Sales in comparable units decreased by 4 percent. Converted into SEK, sales increased by 1 percent to SEK $70,069 \mathrm{~m}(69,450)$. Sales excluding VAT increased to SEK $60,027 \mathrm{~m}(59,491)$, an increase of 1 percent.
The reported sales of SEK $70,069 \mathrm{~m}$ including VAT in the first half-year would have been approximately SEK 3.1 billion higher using the same exchange rates as last year.

In the second quarter, sales including VAT increased by 5 percent in local currencies. Sales in comparable units decreased by 4 percent. Converted into SEK, sales amounted to SEK 36,923 m $(36,947)$. Sales excluding VAT amounted to SEK $31,635 \mathrm{~m}(31,658)$.

The Group opened 152 (119) stores and closed 20 (16) stores during the first half-year. The total number of stores in the Group as per 31 May 2013 thus amounted to $2,908(2,575)$ of which 2743 were H\&M stores, 69 COS stores, 64 Monki stores, 21 Weekday stores, 7 \& Other Stories stores and 4 Cheap Monday stores. 98 of the Group's stores were franchise stores.

## Comments on the second quarter

The second quarter has been characterised by many store openings, among them the first H\&M store in South America in Chile. At the end of the quarter the H\&M Group had more than 2,900 stores in 49 markets.

Total sales increased by 5 percent in local currencies. Although sales remained strong in Asia, for example in China and Japan, overall sales were not satisfactory. This was mainly because of the continued challenging conditions for the fashion retail industry due to the tough macro economic climate and unfavourable weather in March and a couple of weeks into April in many of H\&M's big markets.

Reported sales in SEK in the quarter were affected by substantial currency translation effects as a result of the continued strengthening of the Swedish krona against most sales countries' currencies. To illustrate the great impact of currency translation effects on sales in the quarter: the reported sales figure of SEK $36,923 \mathrm{~m}$ would have been approximately SEK 1.8 billion higher using the same exchange rates as in Q2 2012.

H\&M's gross margin is a result of many different factors, internal as well as external, and is also affected by the decisions that H\&M makes in line with its strategy to always have the best customer offering in each individual market - based on the combination of fashion, quality, price and sustainability.
The gross margin for the quarter amounted to 61.1 percent (61.7). The overall effect of cotton prices, cost inflation and the US dollar - which is the most significant purchasing currency - is considered to have had a neutral effect on purchases for the second quarter compared to the corresponding purchasing period the previous year. The high stock-intrade going into Q2 2013 in combination with the unusually cold weather during the spring led to higher markdowns than planned. Markdowns in relation to sales had a negative effect on the gross margin of 0.9 percentage points compared to the second quarter 2012.

Cost control in the Group remains good. Selling and administrative expenses in the quarter amounted to SEK $13,314 \mathrm{~m}(12,653)$, an increase of 5 percent. In local currencies the increase was 10 percent. The cost increase compared to the second quarter 2012 is due to the expansion and to the long-term investments within IT, online sales and \& Other Stories. These investments aim to further strengthen H\&M's market position in the long term and to secure future expansion. Costs in comparable stores decreased compared to the same quarter last year.
Operating profit amounted to SEK $6,023 \mathrm{~m}(6,893)$, corresponding to an operating margin of 19.0 percent (21.8). Profit after financial items amounted to SEK $6,125 \mathrm{~m}(7,053)$. Profits were negatively affected by increased markdowns, long-term investments and also by substantial negative currency translation effects. Currency translation effects arise when converting local currencies into SEK, H\&M's reporting currency.

The stock-in-trade increased by 12 percent compared to the same time the previous year and amounted to SEK $12,667 \mathrm{~m}(11,299)$. In local currencies the increase was 16 percent. The increase is mainly due to the expansion, but also to the fact that sales did not increase as much as planned. The stock-in-trade amounted to 10.4 percent (9.6) of sales excluding VAT (rolling 12 months) and 25.2 percent (22.1) of total assets. The composition of the stock-in-trade as of 31 May 2013 is deemed to be satisfactory although the level of stock-in-trade is higher than planned, mainly due to the cold spring.

## Financial position and cash flow

Consolidated total assets as per 31 May 2013 amounted to SEK 50,178 m $(51,044)$.
The current operations generated a positive cash flow of SEK $11,218 \mathrm{~m}(10,668)$. Cash flow was among other things affected by dividends of $-15,723(-15,723)$, investments in fixed assets of SEK $-3,375 \mathrm{~m}(-2,620)$ and by changes in short-term investments with a duration of four to twelve months of SEK $1,091 \mathrm{~m}(6,958)$. During the six-month period, the Group generated a cash flow of SEK $-6,764 \mathrm{~m}(-748)$. Liquid funds and short-term investments amounted to SEK $9,061 \mathrm{~m}(13,543)$.
The equity/assets ratio was 69.2 percent (71.5) and the share of risk-bearing capital was 73.2 percent (73.5).

Shareholders' equity apportioned on the outstanding 1,655,072,000 (1,655,072,000) shares as per 31 May 2013 was SEK 20.99 (22.06).

## Expansion

H\&M remains positive as regards future expansion and the Group's business opportunities.

H\&M's growth target remains intact. The growth target is to increase the number of stores by 10-15 percent per year with continued high profitability, while at the same time increasing sales in comparable units.

Approximately 350 new stores net are planned for full-year 2013, which is 25 more stores than the original expansion plan that was communicated in conjunction with the full-year report on 30 January 2013. Most new stores during 2013 are planned to open in China and the US. There are also still great opportunities for expansion in markets such as Russia, Germany, the UK, Italy, Poland and France. In 2013 H\&M plans to expand into the following five new countries: in addition to Chile, stores will open during the course of the year in Estonia, Lithuania, Serbia and, via franchise, Indonesia.

At the end of March 2013 H\&M opened its first store in South America in Santiago de Chile. The store, which is a flagship store in the best location in the Costanera Center shopping mall, got a fantastic reception from customers. In autumn 2013 the first H\&M stores in Lithuania will open - one store in Vilnius and one in Klaipeda. During the autumn the first three $\mathrm{H} \& \mathrm{M}$ stores in Tallinn, Estonia will open, along with the first two H\&M stores in Belgrade, Serbia. During autumn 2013 the first H\&M store in Jakarta, Indonesia will open via franchise in cooperation with the franchisee J.S. Gill.

In August 2013 H\&M will launch its online sales in the US. In parallel, the Group continues to work on the global roll-out of H\&M's online store with the aim of adding more new online countries during 2014.
Expansion continues for the Group's other brands COS, Monki, Weekday, Cheap Monday and \& Other Stories. Later in the year COS, for example, will open its first store in Istanbul, Turkey and also its first store in Geneva, Switzerland. Monki and Weekday opened their first stores in Osaka, Japan at the beginning of June, and Monki its first store in Paris, France - all with a very good reception. Later this year Monki will also open a store in Tokyo, Japan. Cheap Monday will launch its own online store in 18 countries during late autumn.
\& Other Stories got a fantastic reception at the launch of its first seven stores in major European cities as well as online shopping in ten markets.

H\&M Home will also continue to expand, during the year H\&M Home will open in around ten countries including the US, Poland, the Czech Republic and Spain.

In early 2014 H\&M will launch an updated and extended sports concept for women, men and children. The range will be significantly broader than today and will consist of sportswear and accessories in specially developed functional materials suited to various kinds of sporting activities. The concept will initially be launched in H\&M's existing online markets as well as in selected H\&M stores in 15 countries.

H\&M will open in Australia during 2014.
Tax
The Swedish corporate tax rate was reduced from 26.3 percent to 22 percent as of 1 January 2013. The Group's final tax rate depends on the results of its various companies and the corporate tax rates in each country. The H\&M Group's tax rate for the financial year 2012/2013 is expected to be $23-24$ percent and a tax rate of 24 has been used in the first half-year 2013.

## Parent company

The parent company's external sales amounted to SEK 3 m (4) in the first six months of the financial year 2013. Profit after financial items amounted to SEK $1,301 \mathrm{~m}(2,085)$. Investments in fixed assets amounted to SEK 56 m (65).

## Comments on the current quarter

Sales have got off to a good start in June, with a sales increase of 14 percent in local currencies during the period 1 June - 17 June 2013 compared to the same period last year.

## Accounting principles

The Group applies the International Financial Reporting Standards (IFRS) as adopted by the EU. This report has been prepared according to IAS 34 Interim Financial Reporting as well as the Swedish Annual Accounts Act.

The accounting principles and calculation methods applied in this report are unchanged from those used in the preparation of the Annual Report and Consolidated Financial Statements for 2011/2012 which is described in Note 1 - Accounting principles.
The parent company applies the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2 Accounting for Legal Entities, which essentially involves applying IFRS. In accordance with RFR 2 the parent company does not apply IAS 39 to the measurement of financial instruments; nor does it capitalise development expenditure.

## Risks and uncertainties

A number of factors may affect H\&M's results and business. Most of these can be dealt with through internal routines, while certain others are affected more by external influences. There are risks and uncertainties related to fashion, weather situations, negative macro-economic changes, changes in consumer behaviour, climate changes, trade interventions, external factors in production countries and foreign currency, but also in connection with expansion into new markets, the launch of new concepts and how the brand is managed.

For a more detailed description of risks and uncertainties, refer to the Administration Report and to Note 2 in the Annual Report and Consolidated Accounts for 2012.

## Key-ratio definitions
