## Comments by CEO Karl-Johan Persson

"The third quarter has been very good as regards both sales and profits. Profits after financial items increased by nearly SEK 1 billion. Our well received summer collections have resulted in strong sales development in the quarter, particularly in Asia but also in a number of European markets. We have also seen the very successful launch of our online store in the US in August and can see that our offering stands up well in the world's largest online market.

Our expansion is strong. It is not long since we opened our 2,000th store in 2010, and this September - only three years later - we opened our store number 3,000 in Chengdu, one of China's major cities. China is the country where our expansion is strongest, but we are also expanding in other exciting regions. We have opened 215 new stores so far this year and have had successful openings in four new H\&M countries: Chile, Lithuania, Serbia and Estonia. In October this year we will open in another country in Southeast Asia - in Indonesia via franchise - and in the first half of 2014 we will open our first store in Melbourne, Australia. In 2015 we plan to open in South Africa.

We are also continuing to work on our other brands as well as on our global roll-out of online shopping with the aim of launching our online store in more markets during 2014. Expansion continues for our other brands, especially COS and \& Other Stories, which continue to do well and will expand even more rapidly next year."

## Sales and store openings

Sales including VAT increased by 8 percent, in local currencies, in the first nine months of the financial year. Sales in comparable units decreased by 2 percent. The nine-month period has been characterised by substantial currency translation effects as a result of the strengthening of the Swedish krona against most sales countries' currencies compared to the same period the previous year. The reported sales of SEK 107,480 m including VAT in the first nine months would have been approximately SEK 3.5 billion higher using the same exchange rates as last year.

## Comments on the third quarter

Sales in the third quarter have been good with an increase of 12 percent in local currencies. Sales development has been particularly strong in Asia, in countries such as China and Japan, but also in a number of European markets such as Germany, France, Italy, Denmark, Poland and Russia.

H\&M's online store in the US, launched in August, has been very well received by customers. H\&M will continue its rapid store expansion in the US and sees online shopping as an important complementary sales channel in order to reach even more customers and thereby further strengthen H\&M's position in the US.

The gross margin for the quarter amounted to 58.8 percent (58.2). H\&M's purchasing costs and gross margin are a result of many different factors, internal as well as external. Examples of external factors include raw material prices, cost inflation, capacity, purchasing currencies and transportation costs. Overall, the market situation for these factors is considered to have been neutral during the purchasing period for the third quarter compared to the corresponding purchasing period the previous year. How these external factors ultimately affect the purchasing costs and gross margin for a quarter is dependent both on how well H\&M manages these factors and also on the decisions that H\&M makes in line with its strategy to always have the best customer offering in each individual market - based on the combination of fashion, quality, price and sustainability.

Markdowns in relation to sales had a negative effect on the gross margin of 0.2 percentage points compared to the third quarter 2012.

Cost control in the Group remains good. Selling and administrative expenses in the quarter amounted to SEK $13,073 \mathrm{~m}(11,969)$, an increase of 9 percent. In local currencies the increase was 10 percent. The cost increase compared to the third quarter 2012 is due to the expansion and to long-term investments within areas such as IT, online sales and \& Other Stories. These investments aim to further strengthen H\&M's market position in the long term and to secure future expansion. Costs in comparable stores decreased compared to the third quarter 2012, both as a share of sales and in absolute figures.

Operating profit increased to SEK $5,755 \mathrm{~m}(4,802)$, corresponding to an operating margin of 18.0 percent (16.7). Profit after financial items increased by 19 percent and amounted to SEK $5,830 \mathrm{~m}(4,895)$. The strong increase is due to good sales development and cost control. Profits continued to be affected by long-term investments and by negative currency translation effects. The currency translation effects arise when converting local currencies into SEK, H\&M's reporting currency.

The stock-in-trade increased by 14 percent compared to the same time the previous year and amounted to SEK $15,329 \mathrm{~m}(13,501)$. In local currencies the increase was also 14 percent. The increase is mainly due to the expansion. The stock-in-trade amounted to 12.3 percent (11.3) of sales excluding VAT (rolling 12 months) and 27.3 percent (25.5) of total assets. Although the level of the stock-in-trade as of 31 August 2013 is slightly higher than planned, the composition of the stock-in-trade going into the autumn season is deemed to be good.

## Financial position and cash flow

Consolidated total assets as per 31 August 2013 amounted to SEK $56,065 \mathrm{~m}(52,974)$.
The current operations generated a positive cash flow of SEK 14,974 m (13,044). Cash flow was among other things affected by dividends of $-15,723$ ( $-15,723$ ), investments in fixed assets of SEK $-5,340 \mathrm{~m}(-4,313)$ and by changes in short-term investments with a duration of four to twelve months of SEK $2,995 \mathrm{~m}(5,525)$. During the nine-month period, the Group generated a cash flow of SEK $-3,073 \mathrm{~m}(-1,454)$. Liquid funds and short-term investments amounted to SEK 10,953 m (13,552).
The equity/assets ratio was 69.9 percent (72.3) and the share of risk-bearing capital was 73.4 percent (74.0).

Shareholders' equity apportioned on the outstanding 1,655,072,000 (1,655,072,000) shares as per 31 August 2013 was SEK 23.69 (23.13).

## Expansion

H\&M remains positive as regards future expansion and the Group's business opportunities.

H\&M's growth target remains intact. The growth target is to increase the number of stores by 10-15 percent per year with continued high profitability, while at the same time increasing sales in comparable units.

Approximately 350 new stores net are planned for full-year 2013. Most new stores in 2013 are planned to open in China and the US. There are also still great opportunities for expansion in markets such as Russia, Germany, the UK, Italy, Poland and France. In 2013 H\&M is expanding into the following five new countries: Chile, Lithuania, Serbia and Estonia - all of which have already opened - and also in October, via franchise, Indonesia.

In September, H\&M opened its store number 3,000. The store is located in the new Fun Square shopping centre in Chengdu, which is one of China's major cities.

The first H\&M stores in Lithuania - one in Vilnius and one in Klaipeda - got a fantastic reception at their openings in August and September, respectively. The same was true of the first H\&M store in Tallinn, Estonia, which opened in September. A further two stores will open in Tallinn later this autumn. The first two H\&M stores in Belgrade, Serbia were also very well received by customers on opening in August and September.

The first H\&M store in Jakarta, Indonesia will open at the beginning of October via franchise in cooperation with the franchisee J.S. Gill.

H\&M's online store in the US, which was launched on 1 August 2013, has got off to a very good start. Online shopping is an important complement to the stores and provides increased opportunities to reach an even broader customer group in the US, which will further strengthen H\&M's position in the US market. The Group is continuing to work on the global roll-out of $\mathrm{H} \& \mathrm{M}$ 's online store and plans to launch online shopping in more markets during 2014.
Expansion continues for the Group's other brands COS, Monki, Weekday, Cheap Monday and \& Other Stories.

During the autumn COS will open its first stores in Istanbul, Turkey, in Singapore and in Geneva, Switzerland. COS will also open its first US store in spring 2014 in New York's SoHo district.

Monki's first store in Tokyo was very well received at its opening at the beginning of September. During autumn 2013 and at the beginning of 2014 Monki will open its first stores in Russia in Moscow, Ufa, Yaroslavl and Samara.

Cheap Monday will open two stores in China, one in Beijing at the end of 2013, and one in Shenyang at the beginning of 2014. Cheap Monday will launch its own online store in 18 countries in late autumn 2013.
\& Other Stories, which got a fantastic reception at the launch of its first seven stores in major European cities as well as online shopping in ten markets, will open an additional store in Berlin during autumn 2013.
H\&M Home will also continue to expand. During the year H\&M Home will open in around ten countries including the US, Poland, the Czech Republic and Spain.

In early 2014 H\&M will launch an updated and expanded sports concept for women, men and children. The range will be significantly broader than today and will consist of sportswear and accessories in specially developed functional materials suited to various kinds of sporting activities. The concept will initially be launched in H\&M's existing online markets as well as in selected H\&M stores in 15 countries.

H\&M will open in Melbourne, Australia during the first half of 2014. H\&M also plans to open in South Africa from 2015 at the earliest.

## Tax

The Swedish corporate tax rate was reduced from 26.3 percent to 22 percent as of 1 January 2013. The Group's final tax rate depends on the results of its various companies and the corporate tax rates in each country. The H\&M Group's tax rate for the financial year 2012/2013 is expected to be $23-24$ percent and a tax rate of 24 percent has been used in the nine-month period 2013.

## Parent company

The parent company's external sales amounted to SEK $5 \mathrm{~m}(5)$ in the first nine months of the financial year 2013. Profit after financial items amounted to SEK $2,086 \mathrm{~m}(2,824)$. Investments in fixed assets amounted to SEK 87 m (87).

## Comments on the current quarter

Sales increased by 8 percent in local currencies in the period 1 September - 24 September 2013 compared to the same period last year. H\&M estimates that the full month of September will have a negative calendar effect of approximately 2 percentage points for the Group. The sales increase should be seen in the light of very strong sales development of 15 percent in September 2012.

## REVIEW REPORT

H \& M Hennes \& Mauritz AB (publ), corporate identity number 556042-7220

## Introduction

We have reviewed the interim report for H \& M Hennes \& Mauritz AB (publ) as of 31 August 2013 and for the nine-month period which ended on this date. It is the responsibility of the Board of Directors and the Managing Director to prepare and present this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express an opinion on this interim report based on our review.

## Focus and scope of review

We conducted our review in accordance with the Swedish Standard on Review Engagements SÖG 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope compared with the focus and scope of an audit conducted in accordance with the International Standards on Auditing and the generally accepted auditing practices.

The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the opinion expressed based on a review does not provide the same level of assurance as an opinion expressed on the basis of an audit.

## Conclusion

On the basis of our review, nothing has come to our attention that causes us to believe that the interim report, in all material aspects, was not prepared in accordance with IAS 34 and the Swedish Annual Accounts Act in the case of the Group and in accordance with the Annual Accounts Act in the case of the parent company.
