Comments on the Results for the second quarter

Sales development during the second quarter is considered good with increased market shares in all countries of operation.

Gross margin, which during the quarter decreased by 0.4 percentage units compared with the same period last year, has been negatively affected approximately 0.5 percentage units by the increasing value of the US dollar.

Furthermore, the quarter has been charged with extraordinary price reductions on the American market of approximately SEK 50 M, due to stock levels budgeted too high. Price reductions for the rest of the Group were at a lower level than during the corresponding quarter last year.

The result for the quarter has been affected positively by currency translation effects by SEK 137 M compared with the previous year. The currency translation effects arise when results of foreign subsidiaries are translated into SEK in order to be consolidated into the H&M Group accounts.

Financial position

Group balance sheet total increased by 15 per cent and corresponded to SEK 16,060.7 M (SEK 13,913.4 M).

During the period, the Group generated a positive cash flow of SEK 85.4 M (SEK -576.6 M).

Financial assets amounted to SEK 5,735.8 M (SEK 6,157.3 M) a decrease of SEK 421.5 M.

Stock-in-trade was SEK 3,943.3 M (SEK 3,191.2 M), an increase of 24 per cent. Nine percentage units of the increase are attributable to changes in exchange rates.

Investments in fixed assets amounted to SEK 776.1 M (SEK 996.9 M).

The equity/assets ratio corresponded to 78 per cent (73 per cent) and the share of risk-bearing capital was 82 per cent (77 per cent).

Net worth apportioned on the outstanding 827,536,000 shares on 31 May corresponded to SEK 15.15 (SEK 12.30).

Expansion

The planned store opening programme continues according to plan. During the rest of the fiscal year, approximately 50 stores will be opened principally in the USA, Germany, Great Britain and Austria.

The Parent Company

The parent company, which is not the same as the Swedish operations, reached a turnover (including inter-company sales) during the period of SEK 2,691.9 M (SEK 2,797.4 M) and estimated taxable profit of SEK 726.3 M (SEK 956.7 M), of which SEK 729.9 M (SEK 835.2 M) was dividend from subsidiaries.
