- ***Approximately 75 stores are planned to open in the USA in the next three year period.***

-----

*Total turnover of the H&M Group rose by 10 per cent in the first six months of the fiscal year (in comparable currencies, turnover increased by 16 per cent) and reached SEK 17,242.0 M including VAT (SEK 15,682.7 M).*

*A relatively inferior assortment mix during the spring has led to the turnover increase not developing at the same pace as in the previous year and with larger inventory and price reductions as a result.*

*Sales outside Sweden accounted for 85 per cent (84 per cent).*

*Gross operating profit reached SEK 7,438.8 M (SEK 6,852.3 M), which corresponds to 51.0 per cent (51.7 per cent) of the turnover. Price reductions during the first six months in relation to turnover was approximately SEK 170 M larger than in the first six months last year, corresponding to 1.2 percentage units in margin.*

*After deduction for selling and administrative expenses, operating profit was SEK 1,683.3 M (SEK 1,955.2 M). The result reached corresponded to an operating margin of 11.5 per cent (14.8 per cent). Operating profit has been charged with depreciation according to plan amounting to SEK 302.6 M (SEK 234.1 M) and start-up costs (the part of the investment in new premises which is treated as a cost item) of SEK 213.5 M (SEK 97.3 M). After depreciation but before start-up costs, operating margin reached 13.0 per cent (15.5 per cent).*

*Group financial net interest income of SEK 129.4 M (SEK 93.5 M) added, profit after financial items was SEK 1,812.7 M (SEK 2,048.7 M).*

*Compared with last year, the result as been affected negatively by exchange rate fluctuations of SEK 163 M. These arise when results of foreign subsidiaries are translated into Swedish Kronor to be consolidated into the group accounts and have been affected by the Swedish Krona having been strengthened in relation to the European currencies.*

*Profit after comprehensive tax allocation was SEK 1,178.3 M (SEK 1,331.7 M), corresponding to earnings per share of SEK 1.42 (SEK 1.61).*

*Return on shareholders' equity (revolving 12 months) was 31.0 per cent (35.6 per cent) and return on capital employed (revolving 12 months) was 47.3 per cent (53.3 per cent).*

*When judging the result, it should be taken into consideration that the result for the first six months last year increased by 51 per cent and that establishment on two new markets is a considerable investment. This investment is in level with the budget and will, according to the judgement of the Group, yield a very good return.*

*As has been reported earlier, operating expenses have been allowed to rise unacceptably. Measures, which have been taken to improve the cost level, have given effect in the later part of*

the second quarter. Full effect will be obtained during the second half of the financial year.

Group balance sheet total increased by 17 per cent and corresponded to SEK 13,913.4 M (SEK 11,868.9 M). Financial assets amounted to SEK 6,157.3 M (SEK 6,024.5 M). Stock-in-trade increased by 25 per cent and was SEK 3,191.2 M (SEK 2,556.3 M). Adjusted for exchange rate fluctuations, stock-in-trade was 29 per cent larger than last year. The increase is to approximately 50 per cent attributable to new stores.

The equity/assets ratio corresponded to 73 per cent (73 per cent) and the share of risk-bearing capital was 77 per cent (78 per cent).

Net worth apportioned on the outstanding 827,536,000 shares on 31 May corresponded to SEK 12.30.

A total of 34 new stores were opened during the six-month period and 14 were closed (10 of which were Galne Gunnar).

On 30 March, the first H&M store was opened on the American market. Thereafter, two stores have been opened in shopping centres outside the city of New York. As sales per square metre for H&M in the USA by far exceed square metre sales in the European countries and the gross margin is at the same level as the on rest of the markets, the Group has decided to heavily increase the expansion pace in the US. In the next three-year period, approximately 75 store are planned to open in north-eastern USA.

*Also the establishment in Spain has been successful. Three stores, one in Barcelona and two in Zaragoza, were opened in the later part of the period. In the rest of the financial year, a further five stores are planned to open, two in Madrid and three in Barcelona.*

*During the rest of the fiscal year, a total of 58 new stores are planned to open and five to close.*

*This half-year report has not been audited.*
