H&M GROUP SALES DEVELOPMENT IN OCTOBER

In the month of October 2009, sales in local currencies including VAT increased by 7 percent compared to the same month previous year. The continued recession affected sales differently across H&M's markets. Sales in Scandinavia, Central Europe and Asia were very satisfactory while most other markets, primarily France, Spain and the US, had a continued weak sales development.

Sales increase per month in per cent excl. currency rate changes:
